Superb finish
that lasts

Hardtop

Ensuring visual appeal and resilience of assets around the globe

Since 1978, Hardtop has delivered outstanding performance for all types of steel structures, beautifying and protecting millions of square meters globally. With exceptional colour and gloss retention, excellent application properties and prolonged durability, Hardtop ensures a finish that exceeds expectations, securing resilience and reliability, withstanding even the harshest conditions for years to come.

Superb appearance

The superb appearance enhances aesthetics while visibly reinforcing asset integrity. The visual appeal and reliability elevate confidence in the asset's performance and operational safety.

Enhanced steel protection

Serving as the first layer of defence, Hardtop prolongs maintenance intervals, supports asset integrity, and shields against weathering and mechanical impact.

Proven over time

Proven over time, Hardtop is established as one of the industry's most reliable, high-performing topcoats – delivering a superb finish that lasts.

Hardtop | XP II

Building on the legacy of Hardtop XP, with more than 15 years of proven performance, Hardtop XP II is Jotun's most versatile and efficient topcoat. By delivering increased application efficiency, lasting aesthetics and enhanced steel protection, Hardtop XP II provides predictable results – every time.

- Lasting aesthetics
- Improved hardness development
- Increased application efficiency
- Exceptional versatility

Hardtop | AX

Hardtop AX is a polyurethane topcoat designed for durability and long-lasting aesthetics. It offers a robust finish with excellent mechanical strength and low dirt pickup. With outstanding colour and gloss retention, Hardtop AX ensures a glossy appearance that stands the test of time.

- Robust finish
- Easy application
- Superior durability
- Very good chemical resistance

Hardtop | OPTIMA

Hardtop Optima is a durable polysiloxane topcoat offering a premium finish with outstanding colour and gloss retention for a long-lasting appearance. Free from isocyanates and di-isocyanates, it is ideal for projects targeting green building rating points, and is a preferred topcoat for the HSE-conscious.

- Outstanding durability
- Excellent colour and gloss retention
- Good chemical resistance
- Patented technology
