# *Jotafloor* PU CRETE

DURABILITY BACKED  
BY JOTUN SUPPORT

FOR INDUSTRIAL FLOOR COATINGS

# PREPARED FOR EVERYTHING YOU NEED, AND PROBABLY A LITTLE MORE.

There is a lot you have to consider when choosing floor coatings, and in today's environment when health and safety are on the top of everyone's mind, it's becoming more difficult to find a solution that fits your needs. That's why we offer support that goes beyond the moment of purchase, past final installation, throughout the years to come. Jotafloor PU Crete offers a wide range of uses, which, coupled with our unmatched technical support network, means it lasts even longer.

# PROTECT YOUR FLOORS. PROTECT YOUR PROFITS.

Jotafloor PU Crete is flooring that's made to survive through chemical spills, extreme changes in temperature, intensive deep cleaning, and high-impact use. With Jotafloor PU Crete you can rest assured that you won't need to shut down operations just to recoat your floors, so you can keep your services up and running longer with fewer maintenance closures.

In the long run, protecting your floors means protecting your profits.

# Jotafloor

Jotafloor PU Crete is just one of many floor coating solutions we offer. Based on our wealth of knowledge in the protection and decoration of concrete, we've created a wide range of Jotafloor products.

JotaFloor from Jotun specialises in highly intuitive, extensively researched, and well-designed flooring solutions to cater to your needs in any project you come across. We offer a range of products tailored to the preservation, beautification, and modification of concrete. The Jotafloor range of products and systems are able to protect and extend the life of floors through certain protective qualities. These qualities can safeguard against chemical spills, heavy traffic, abrasions and other impacts, whilst providing a range of colours that are aesthetically pleasing. With an entire line of products backed by leading customer support, we can provide you with flooring that will last long into the future.
